PROSPECTUS

Electro-Auricular Therapy Practitioners Certificate (including Reflective Practitioners Development*)

The final level of the Comprehensive Diploma in Auricular Acupuncture is designed for practitioners who have completed The Auricular Acupuncture Practitioners Certificate course and wish to set up in private practice.

This stage of the training uses electro-acupunctoscopes as an alternative method of treatment to using needles. A non-invasive method of treatment that is safe to administer, alleviates the risk of infection and offers no side effects. The apparatus used is suitable for domiciliary and clinical use.

Our unique treatment technique offers a very high success rate for disorders such as:

Addiction	Hay Fever	P.M.S.
Anxiety	Headaches	Sciatica
Arthritis	Hiatus Hernia	Sinusitis
Asthma	Indigestion	Sports Injuries
Back Pain	Insomnia	Smoking Cessation
Colitis	Migraine	Tennis Elbow
Depression	Obesity	Tendonitis

COURSE TRAINING

Theoretical and Practical Work

This course completes Auricular Acupuncture **theory** from both the Western Medicine and Chinese Medicine approaches. It looks in more detail at the pathology of the ear and its interrelationship with treating chronic conditions and pain management and how it can be used as a diagnostic tool.

For the **practical** side we use electrical acupunctoscopes for locating and treating auricular acupuncture points. Our studies do include T.E.N.S some practical and theoretical techniques of traditional body acupuncture but on a limited basis. Please refer to the Course Syllabus for further information.

Please Note: The sophisticated electro-acupunctoscopes used in training locates points very easily and by a simple switching facility, you can administer treatment. The machine is portable and therefore ideal for domiciliary visits.

Practice Management

This course helps its students in practice development and management. It includes setting up in practice, advertising and ways of generating business, patients' records, keeping a diary, business records and professional conduct. All these play an integral part in making your practice successful.

Practical and Final Examination

The practical and theory examinations are carried out on the final day of the course.

REFLECTIVE PRACTITIONERS DEVELOPMENT* (Case Studies)

At the end of the course students are required to practice auricular acupuncture on friends, family and colleagues and complete client consultations in the form of case studies (minimum of 40 treatments). They are expected to complete a reflective journal of their experiences.

Open College Network Accreditation

Once students have completed and passed the Electro-Auricular Therapy Practitioners Certificate course, they will be registered with the Open College Network. At the beginning of the training it is explained what they will need to achieve by the end of the course. The tutor continually assesses progress for the duration of the course in a variety of ways, both practical and written. All students achieving the goals of the course receive certificates from both The College of Auricular Acupuncture and the Open College Network.

OCN- 6 Credits at Level 3 – equivalent to NVQ Level 3
Reflective Practitioners Development - 6 Credits at Level 3

COMPREHENSIVE DIPLOMA IN AURICULAR ACUPUNCTURE
